

25 January 2012

Keith Jansa
Program Officer
Standards Council of Canada
270 Albert Street
Ottawa, ON K1P 6N7

ISO TC 224, TC 251 and TC 253

On behalf of the Canadian Water and Wastewater Association (CWWA), representing the interests of Canada's municipal water and wastewater services and their private sector suppliers, I am pleased to confirm that the members of this Association appreciate and value the work of these three committees, in particular and to affirm that senior staff members of several have participated over the years in the development of the existing standards ISO 24510, 24511 and 24512.

Work in the TC 224 committee continues through WGs 6, 7, 8 and 9 (the latter being about to begin), and in TC 251 and TC 253. Members of CWWA provide staff to participate either directly in the Committees or WGs and in any case are active members of the Mirror Committees.

In addition to considerable donated professional time, the Municipalities employing the actively attending staff members absorb supplementary costs of travel, although they do appreciate and value the funding that has been provided by SCC.

On behalf of CWWA members, I express our firm support for international standardization, and the work of the Standards Council of Canada.

Yours sincerely,

Dan Limacher
President
